

Technology Acceptable Use Policy (AUP)

(Lower School Student-version)

Use of the computers is a privilege, not a right. Those who misuse that privilege will have it taken from them. The King's Academy will monitor all use of computers.

1. I will not do anything to harm the computer equipment.
2. I will not give my password to anyone else, or use someone else's password.
(Example: Accelerated Reader)
3. I will not eat or drink around the computers.
4. I will not use the computer without permission from my teacher.
5. I will not use the internet without permission from my teacher.
6. I will always ask my teacher for permission to copy or download information from software or the internet.
7. I will not open or change any file that is not mine.
8. I will not change the settings of the computer such as mouse pointers, screen savers, desktop backgrounds, and moving icons.
9. I will not play games, email, or chat on the internet unless my teacher has given me a class assignment to do so.
10. I will only open the internet sites my teacher gives me.
11. I will not use the computer to be mean or dishonest.

I promise to obey the rules above.
